PROFESSIONAL EXPERIENCE

- **2025 - Present** FULLSTACK DEVELOPER
Desarrollos Online | Madrid
 - I led the autonomous learning and deployment of a **reusable component-based architecture** in one week, **reducing delivery time by 20%** and ensuring on-time launch.
 - I refactored critical **PHP code modules** using **Clean Code**, improving system scalability and **accelerating feature deployment by 15%**.
 - I led the **pixel-perfect layout** with **SASS** and the functional development of an energy platform for **over 100,000 users**, optimizing performance with **AI assistance**.
- **2023 - 2025 (2 years)** FULLSTACK DEVELOPER
Freelance | Online
 - I **built** a scalable platform from scratch using **SQL databases (MySQL)** and **REST APIs** in **Node.js/Express**, **improving performance by 30%** through optimized indexes and queries.
 - I designed in **Figma** and developed interactive components with **React**, **TypeScript**, and **Vite**, using a **mobile-first approach (CSS Flexbox/Grid)**, ensuring smooth navigation.
- **2017 - 2023 (6 years)** FRONTEND UI DEVELOPER
Corus Consulting | Madrid
 - I implemented advanced **WPO strategies** (caching, WebP, lazy loading) in large **WordPress ecosystems (PHP/JS)**, **increasing PageSpeed from 60 to 90** and accelerating page load times by 30%.
 - I led the **cleanup and restoration of PHP code following security incidents**, coordinating with IT teams to block threats and ensuring service continuity without data loss.
 - I systematized workflows using reusable styles with **SASS** under **Scrum/Kanban methodologies**, **reducing delivery times by 20%**.
 - I developed **responsive** and **pixel-perfect accessible interfaces (WCAG)** for the Healthcare and Insurance sectors, ensuring adherence to corporate standards and the use of **design systems**.
